## WORK EXPERIENCE

### Senior software engineer

#### Knowledge Lens: A Rockwell Automation Company

08/2021 - Present

Bengaluru, India

##### Achievements/Tasks

- Developed RESTful APIs using Python FastAPI
- Designed and implemented database schemas and queries in PostgreSQL, ensuring optimal performance and data integrity.
- Utilized Elasticsearch for efficient search functionality and implemented relevant indexing strategies. Redis as a caching layer to improve application performance and reduce latency.
- Collaborated with the team using Jira to manage project tasks, track progress, and ensure timely delivery. Actively participated in Agile ceremonies, contributing to sprint planning, stand-ups, and retrospectives.
- Conducted code reviews and provided constructive feedback to enhance code quality and maintainability.
- Implemented security best practices, including input validation, encryption, and adherence to security standards, to safeguard applications against potential vulnerabilities.

## PROJECTS

### FT-BPA (05/2024 - Present)

- Handling Backend Development using Python.

### Digital Tech Transfer (09/2021 - 05/2024)

- Predominantly worked as a Backend Developer in Digitizing the hard copy of pdf and segregating its content to generic structure - ISA88, B2MML.
- Developed a scalable RESTful API using Python FastAPI to facilitate real-time data processing and analysis.
- Implemented authentication and authorization mechanisms to ensure data security. PostgreSQL database for storing and retrieving large datasets efficiently.
- Integrated Redis as a caching layer for storing authentication tokens to improve application performance and reduce latency. Utilized Elasticsearch for storing structured json.
- Handled Deployment of application using azure Kubernetes

### Market Research Analytics (05/2021 - 08/2021)

- Handling Backend - Design and development of a Microsoft word add-in

### Survey Automation Tool (03/2021 - 05/2021)

- Survey document highlight mechanism using Python.
- MongoDB database for storing and retrieving large datasets efficiently.

## EDUCATION

### Bachelor of Engineering

#### Vivekananda College of Engineering & Technology, Puttur

2017 - 2021

Puttur

##### Courses

- Bachelor of Engineering In Computer Science
- CGPA: 8.65

## SKILLS

Programming Languages: Python, C, C++

Databases: MySQL, PostgreSQL, MongoDB, Elasticsearch, Redis

Frameworks: FastAPI, Flask

Cloud Platforms: Microsoft Azure

Agile Methodologies: Scrum, Kanban

Strong problem-solving and debugging skills Excellent communication and collaboration abilities

Innovative and Creative Thinking

## ACHIEVEMENTS

### Honorable Mention award in Genius Olympiad - Oswego, NY

*Represented Team India and received an Honorable Mention award at the Genius Olympiad 2014 held at Oswego University, New York*

### Budding Star - 2023

*Recognition received from Knowledge Lens, a Rockwell Automation Company, for dedication and initiative taken at work*

## LANGUAGES

English

*Full Professional Proficiency*

Hindi

*Limited Working Proficiency*

Kannada

*Native or Bilingual Proficiency*

## INTERESTS

Photography

Art - Painting

Creative writing
